AMELIA

CRAFTED & COMPOSED

The Amelia Collection drifts between art and ease, where hand-knotted patterns breathe texture into the breeze, wrapping comfort and style in a quiet rhythm of simple elegance.

HANDWOVEN

Our artisans handweave all-weather rope with steady precision, forming patterns that stay strong in the elements and reveal the careful craft behind every piece.

AVALON

ANGULAR & TEXTURAL

The Avalon Club Chair weaves strength and elegance into one sculptural form, where architectural lines meet handwoven texture for a look that feels both timeless and effortlessly modern.

A ONE-OF-A-KIND WEAVE

The Avalon's weave has its own rhythm, handwoven from all-weather rope that feels alive to the touch, strong enough for every season, soft enough for every day.

BISCAYNE

PAST & PRESENT

Biscayne feels like discovering an ancient form reborn, with solid teak shaped into bold legs, a bouclé seat that softens the structure, and a woven wicker back that whispers of heritage.

THE BEAUTY OF TEAK

Teak is a tropical hardwood rich in natural oils that protect it from water, wear, and mold. Sustainably sourced from Indonesian forests, it is valued for its strength, natural beauty, and weather resistance.

SICILY

EARTHY & HARMONIOUS

Sicily brings spaces to life with gentle curves, warm teak, and richly woven textures, inviting you into a world where deep cushions, soft performance fabrics, and playful geometry come together in a relaxed mid-century spirit.

THE CARE OF TEAK

To maintain teak's golden hue, apply a teak oil or sealer once or twice a year. For deeper restoration, lightly sand the wood with 120–220 grit paper before applying oil to revive its warm, amber tone.

OUR MATERIALS

All materials used in our products are optimal for outdoor use. They are made to withstand wide temperature ranges, UV rays, water, and overall harsh atmospheric conditions.

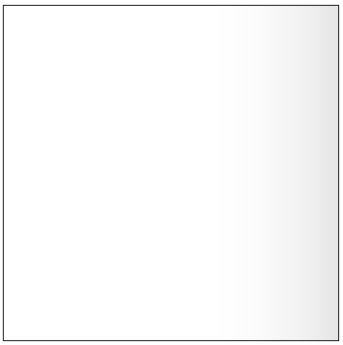

Our powder coated aluminum is lightweight and very durable. We guarantee excellent resistance to corrosion, weather, and water. Our aluminum is precision welded, hand polished, and requires little maintenance.

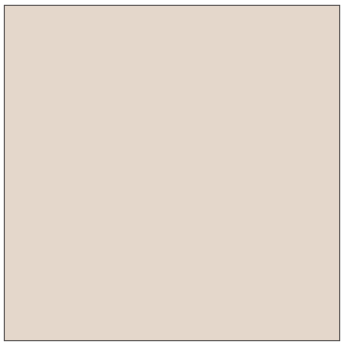

To clean, wash the furniture with a solution of mild detergent and water, rinse with clear water, and dry thoroughly.

Our rope is olefin-based and performs excellently for outdoor use as it is climate and UV-resistant.

It is easy to maintain and can be cleaned with a solution of mild detergent and water. Once detergent and water are applied, simply rinse with clear water and dry thoroughly.
Do not use oil cleaners.

Textelene, a woven, vinyl-coated, high-strength polyester yarn, is ideal for outdoor furniture. Its synthetic coating ensures superior weather and UV resistance, coupled with exceptional mechanical and chemical strength.

The non-absorbent nature promotes quick drying, maximum stain and mold resistance, and easy cleaning with mild soap and water.

Engineered to withstand the demands of rigorous cleanings and heavy use in high-traffic commercial environments as well as home use. Designed to weather the elements and resist stains, spills, fading, and mildew.

Our fabrics are amazingly easy to clean.
Most spills clean up with just mild soap and water.

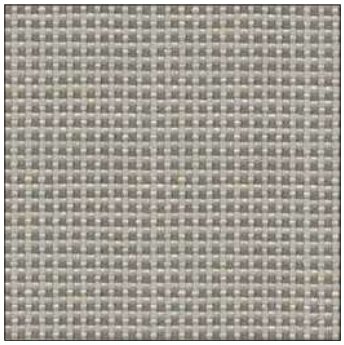

Furniture covers are strongly recommended to protect furniture from the elements and minimize aging.

Our concrete products are made from GFRC (glass fiber reinforced concrete). This combination produces light yet strong products with a contemporary solid concrete appearance. Each product is finished individually; each product is unique with variations in shading and marks.

Dirt and stains can be removed from GFRC by scrubbing with a mild detergent and water.

TEAK

TEAK
hardwood

Sustainably harvested and inherently durable, teak is naturally amber colored but weathers to a silvery gray patina when left outside.

Quickly clean the spillage by dabbing the area clean with a clean, absorbing cloth. Use clean water to spray dirt away from the surface and dry thoroughly. Do not use soap. To maintain teak's natural honey-amber color, applying teak oil prevents weathering. Sealers also protect the wood from UV radiation, molding, and water damage.

Spray mild cleaner on the surface and let sit for 2-3 minutes. Flush with water, avoid residue drying on the surface. Wipe the surface with a clean, dry cloth.

THE HIGH-PERFORMANCE FABRIC

Batyline

FOR THE MOST DEMANDING OUTDOOR APPLICATIONS

Batyline fabric, with its breathable open weave, dries quickly, resists stains, and provides a soft touch for outdoor use. Made by the Serge Ferrari Group, it is Greenguard Gold-certified, recyclable, and highly durable, retaining color and form in harsh weather. Batyline Eden uses Smart Yarn technology for exceptional UV resistance, ideal for outdoor seating.

REPRESENTS EXCELLENCE IN FUNCTIONAL BEAUTY

DEKTON®

THE SURFACE FOR DESIGN AND ARCHITECTURE

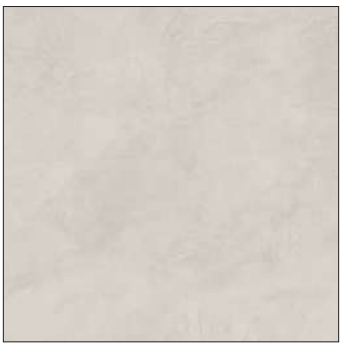

Dekton is an ultra-durable, UV-resistant material ideal for demanding applications like facades and floors, as its color doesn't fade or degrade over time. Its ultracompacted structure resists impact, scratches, stains, and temperature changes, while its A1 non-combustible certification ensures safety. With low porosity and easy maintenance, Dekton is perfect for high-performance architectural projects indoors or out.
